PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	NIL	
<u>Minor</u> REVISION comments	In the title of the article, better to mention- patients who are on warfarin therapy,instead of warfarin patients. In the results- better to mention datas in number instead of words. Comparative studies are not mentioned to the present study in the discussion part.	Many studied in literature published either warfarin patients or patients on warfarin No harm in this way too, many studies are evident in literature Only a few are reported which are highlighted.
<u>Optional/General</u> comments	Good Study.	Thanks

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
