PART 1: Review Comments

	Reviewer’s comment	Author’s comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The case shown here is not adding any new information. Otherwise much of the information is lacking. In particular hiow do you diofferentiate his hearing loss was central form peripheral? There is nothung on vestibular examination as to better clarify findings as inner ear or cerebellar. Is based only on a symptom and an MRI.	Restructured and necessary changes has made
<u>Minor</u> REVISION comments	LMN: define Cerebellar signs: describe	Explained
<u>Optional/General</u> comments		

PART 2:

	Reviewer’s comment	Author’s comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	No issues
