Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none">1. There is need for serious English language and grammar revision for the whole article. (done)2. The title is talking of Saudi Arabia but the study area is not representative of the whole of Saudi Arabia. (done)3. The tables are not correctly numbered in line with the text. (done)4. There is need for more references. Otherwise the level of potential plagiarism may be high. (done) <p>When reading the whole study I found some issues detailed below -</p> <ol style="list-style-type: none">1. In abstract:<ol style="list-style-type: none">a. Write as it as was observed that instead of it demonstrated 75.20% (done)2. Introduction:<ol style="list-style-type: none">a. In the second paragraph use word selected instead of conducted. (done)3. Materials and Methods:<ol style="list-style-type: none">a) We cannot use I, We, You in any research work. (done)b) The sample collected from 18 to 60 years. It should be categorized as 20 to 40 years, 41 – 60 years. MSI is not same for respondents of 18 years and 60 years. (done)4. Results:<ol style="list-style-type: none">a. In result ... rewrite it as Table1: Distribution of respondents according to prevalence and severity of pain during the last 6 months instead of prevalence and severity of pain during the last 6 months. (done)b. Making of Table format is not accurate one. Sample size should be written in upper part of the Table in right side not inside the Table. (done)c. In Table there should be two separate columns for Frequency and Percentage. (done)d. In Table 2. Demographic profile of the respondentsInstead of demographics. (done)e. Interpretation is required in every Table. (done)f. Table Heading and format should be changed. (Not sure what to change it to)g. In case of Fig heading should be below the Fig. (done)h. In the study participation respondents in sports was calculated and there is no	<p>All feedback has been taken into consideration</p> <p>F. Not sure what to change to</p>
