

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_84204
Title of the Manuscript:	Molecular characterization of Salmonella typhimurium and E. coli 0157:H7 isolated from ready-to-eat chicken meat
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	Please recheck all the number of each isolate examined, e.g 38 or 34 <i>E coli</i> isolates (p14); 25 or 33 <i>Salmonella</i> isolates (p14) Both are forward primers (p6) ? Which one is correct for annealing temperature : 56 or 65 or 55 (p 6 and 8) ? For the molecular marker, indicate the molecular weight of each band in the lane M Visualized the band of electrophoresis more clear (figure 1, 2, 3)	E coli isolate =38 Salmonella isolate=25 Sorry first forward and second reverse primers The different annealing temperature should be for the different primers I don't have the molecular weight,I did not get that information . Noted
Optional/General comments	Consistency of writing (c vs C; ul vs uL); see the manuscript What is the abbreviation of IITA, SMT ?	Noted International Institute of Tropical Agriculture (IITA). Standard Microbiological Test (SMT)

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript? NO	(If yes, Kindly please write down the ethical issues here in details)
