

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_84225
Title of the Manuscript:	The leaf Essential Oils and Antibacterial Activity of Juniperus oxycedrus ssp. macrocarpa (S. et Sm.) Ball. Growing in Oum El Bouaghi (semi- arid area), Algeria
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalprijournal.com/index.php/JPRI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Data in tables should not be presented as text	The results are generally presented in tables, and when analyzed and discussed, they are presented within the text. As for the experimental data, they are presented as a summary to facilitate the assembly of practical ideas as general information.
Minor REVISION comments	Key words in alphabetical order Research results and conclusion to prioritize the sensitive bacteria to inform further research	suggestion considered:: Antibacterial activity, Chemical composition, Essential oil, GC/MS, Juniperus oxycedrus ssp. macrocarpa L, Oum El bouaghi. suggestion considered:: The anti bacterial activity showed that Staphylococcus aureus was highly resistant and the essential oil may represent potential source of antibacterial agents.
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details) No	The results of this research are purely scientific for the valorization of natural resources on the one hand and the addition of other information to develop scientific research on the other hand.
