PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1/ better and more detailed presentation of selected drugs used for a polypill is necessary	1/ The pharmacological characteristics of the two antiaggregant clopidogrel and acetylsalicylic acid have been exposed.
Minor REVISION comments	1/ I suggest to change the title – the used is too general 2/ tablets characterisation (2.4.) will be more suitable presented in a form of a table 3/ part 3.2. references are missing 4/ tables could be better formatted 5/ Chemical structures are not complete	1/ The title has been changed, <i>Tablets in capsule as strategy to improve adherence in patients cardiovascular disease</i> , instead <i>Pharmaceutical development of a capsule for the treatment of acute coronary syndrome</i> . 2/ Made a new table. 3/ It is right. 4/ It is right.
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
