PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Considering natural alternatives, such as plant extracts, as a good treatment for cancer, but it is not proven, because the treatment for such a disease has not been reached, but it can be considered as expected due to recent studies dealing with this aspect	Anticancer drugs are isolated from natural products. This review mainly highlights the compounds present in natural things which are used as anticancer agents
<u>Minor</u> REVISION comments	A good idea as a prevention of this disease and its developments, not as a final treatment for it	Some drugs used for cancer treatment are isolated from natural products. we mention some of these drugs in this article which are in the clinical trials.
<u>Optional/General</u> comments	Its ok	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
