PART 1: Review Comments

	Reviewer’s comment	Author’s comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The choice of diction in the entire review work is not impressive. I wonder if the work was translated from another language. The work has to be reconstructed with focused headings and rewritten with guidance from one who is well-versed in English language. The yellow outlined work indicates that it has to be revised. If the word or phrase beside it is in the bracketed red italics it means that it needs to be changed to that. The blue words are for instructions except in the reference column where it is written in red.	Noted
<u>Minor</u> REVISION comments	-	
<u>Optional/General</u> comments	-
