PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	This original research article presents a remarkable topic exploring the relationship between physical activity, optimism, and resilience among the general population of Aurangabad. The abstract is thorough and essential details are presented. The research design is defined and clearly described. Tables and figures are used thoughtfully and agree with the text. Even though valuable information has been presented in the paper, it is suggested that the author highlight the significance of the research in the background of the study and carry on a deeper discussion on the results presented to provide the added value of the paper. In addition, the author needs to revise the texts in the paper that match with other sources as the similarity index of the paper reaches 47%.	I will try to add significance of the research in the background of the study and will try to revise the text.
<u>Minor</u> REVISION comments	The author needs to consider the notes given in the manuscript to revise some grammatical, punctuation, and/or spelling errors.	Yes, will look into it
<u>Optional/General</u> comments	Revisions need to be made based on the comments given in the manuscript.	Yes, Thank you, will look into it

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
