PART 1: Review Comments

	Reviewer’s comment	Author’s comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>Thank you for the opportunities to review the manuscript.</p> <p>I think that it is necessary to revise the manuscript. In particular, the study design is not quite good.</p> <p>1) Is this a cross-sectional study, or a randomized control study? Please fill in the STROBE checklist or CONSORT checklist.</p> <p>2) Why were participants with discomfort in the simulator excluded? This might cause selection bias. The authors should specify the possibility of selection bias and try to control it.</p> <p>3) Please explain how sample size was calculated?</p> <p>4) In the introduction section (not in the method section), please show both the aim and hypothesis of this study.</p> <p>5) What is the definition of maturity in this study? Why will the maturity make an influence on the ocular motion?</p>	Revised
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments		

Review Form 1.6
