

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_87557
Title of the Manuscript:	Thyroid and Extrathyroid Effects of Methimazole in Modeling Hypothyroidism with Different Doses of antithyroid drug: morfofunctional study
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	NO	Ok
<u>Minor</u> REVISION comments	NO	Ok
<u>Optional/General</u> comments	This is a good article. The first is to optimize the animal model of hypothyroidism and make a better research basis for human thyroid diseases. Therefore, the purpose of the research itself is of great significance; Second, the research theory is sufficient and logical; Third, the detection method is reasonable, rigorous and scientific.	Noted

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>	All experiments have been examined and approved by the Ethics committee of the Bashkir State Medical University.
