General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalipri.com/index.php/JPRI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	I don't understand like a meconium aspiration syndrome with respiratory distress, have an Apgar score of the 1'-8; 5'-8 and 10'- 9??? It was made some neurologic score of this baby? How was the baby at 30 days old? The management of the patient after diagnosis to me, to be quite adequate	We thank reviewer for the valuable inputs. 1. The Apgar score at 1 minute was 6 and due to typographical error, it is written as 8. We are sorry for this mistake. 2. The child followed up at 28 days of life. We have added it in the case report and highlighted.
<u>Minor</u> REVISION comments	I THINK THAT THE AUTHOR NEEDS TO BETTER DESCRIBE THE CLINICAL PICTURE OF THIS NEWBORN ON ADMISSION	Details of NICU stay has been added in the manuscript and highlighted
<u>Optional/General</u> comments	I THINK THAT IS AN INTERESTING PUBLICATION OF CASE REPORT OF A DISEASE THAT HAS BEEN INCREASING ITS INCIDENCE DUE TO THE USE OF THERAPEUTIC HYPOTHERMIA	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
