This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalipri.com/index.php/JPRI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	NONE.	
Minor REVISION comments	<ol style="list-style-type: none">1. Please check the grammar errors in the whole manuscript2. Figure 1-3 have no SD?? It should be added.3. For all hepatology pictures, authors should add the scale range under the microscopic observation into the picture too.	<ol style="list-style-type: none">1. Checked the grammatical error for the whole manuscript2. In figure-2 and 3, I have added Mean \pm SEM value; but in figure-1, it is not applicable3. As in the case of histopathology, as it is very difficult and quantify the changes, no proper numbering system is available as I cross checked with the pathologist
Optional/General comments	This work is interesting and useful for bio-substance extracted on the anti-lipidaemia diseases. It is moderate novelty. The results were presented with good finding and can be believable. However, some minor points need to concerning and revising before accepting the publication.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	
If plagiarism is suspected, please provide related proofs or web links.	The evidence was attached the PDF file. Please check it out.
