Type of the Article	Method Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	If the author prefers to make, the author may be allowed to make few revisions by reducing the verbose in the wording, highlighting more on the 'work relations' and 'social dialogue' which are the theme of the paper. Further, the method of doing a research is not in sync with the first part of 'Social Dialogue'. No idea why Author combined these two concepts in one paper.	Done
Optional/General comments	The efforts are appreciable. Lot of efforts and sincerety would have gone in developing this research paper. Trust no plagiarism exists. Too much of literature review is a slight concern although it is a method article. Rest all are very good.	Revised

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p> <p>Not really. But regarding 'Containerization', the wording is corrected by us as per the spirit of the author's intentions. Author may not have meant to derogate or make sedition on Govt. Containerization reduced the physical loading and unloading and huge drudgery for the labour. This is a natural and civilized development apart from bringing time, cost, and safety benefits for everyone.</p>
