

Review Form 1.6

Journal Name:	Journal of Scientific Research and Reports
Manuscript Number:	Ms_JSRR_87848
Title of the Manuscript:	Determination of the execution time of down tapping allowing a good performance of agrophysiological parameters in reverse tapping of fast metabolizing rubber clones PB 260 and IRCA 18
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The manuscript satisfactory deals with influence of dawn tapping productivity of fast metabolising rubber clones (PB 260 & IRCA 18). Good concern showing regarding down tapping influences the productivity in inverse tapping.	ok
Minor REVISION comments	The manuscript is good for publication, which emphasizing good correlation between assumption and also statistical analysis, which proves growers fully depend on short time for more production.	
Optional/General comments	The concern research project is scientifically and technically good.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
