### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalpsij.com/index.php/PSIJ/editorial-policy> )

### PART 1: Review Comments

|                                     | Reviewer's comment  | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---|---|
| <b>Compulsory</b> REVISION comments | State the conclusion based on the main problem  | I have done that.<br>thank  |
| <b>Minor</b> REVISION comments      | Please follow Vancouver numbered citation and referencing style. The order of citation always starts with 1.<br>Specify author's name in in text citation | This, also has been done  |
| <b>Optional/General</b> comments    | Generally Good research as evident in the flow of presenting the topic from goabl scenario to local then to stating the gap or issue.                     | Thank you<br><br>I since want to appreciate the reviewer for a well done job.   |

### PART 2:

|  | Reviewer's comment  | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|---|---|
| Are there ethical issues in this manuscript? | (If yes, Kindly please write down the ethical issues here in details) |   |
