PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Dear, the manuscript is interesting and worth investigation. However, it was designed based on a classic strategy, which is laborious. Personally speaking, you must have used a Petri's dishes to evaluated it. I have serious concerns on the repeatability.	Yes , you are right , it is very laborious and time consuming. I have decided to include the plate count table. This will show that Petri dishes were used for the research. It may be difficult to repeat, but justice done on the topic
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
