### **PART 1:** Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	1- This review is important in one of the topics of the hour, which included accurate information and covered the topic by more than 85%. 2- There are rare corrections that are almost unmentioned, marked in red. 3- By reviewing the percentages of the review content, the following becomes clear: a- The % of probiotic microbes part = 47%. b- The % of carriers part = 20%. c- The % of references = 33%. Therefore, the title does not correspond to the content to a large extent and I suggest changing the title to: Probiotic Microbes and Their Growth in Different Carriers (a review) Instead of Probiotic Microbial Growth in Various Carriers (a Review)	The title of the paper has been revised in accordance with the reviewer's comment
<b><u>Minor</u></b> REVISION comments		
<b><u>Optional/General</u></b> comments		

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
