Review Form 1.6

**PART 1:** Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<div>1- Does the researcher believe that 52 patients infected with Covid 19 are sufficient to conduct the study and compare with a control group of 40 cases?</div> <div>2- Did the researcher look at the patients' aunts, do they have chronic diseases as well as infection with the virus?</div> <div>3- Are the numbers of patients proportional to sex in order to judge the effect of sex?</div> <div>4- Do patients have cases of smoking or do they drink alcoholic beverages</div>	
<b>Minor</b> REVISION comments	<div>1- Were the patients previously infected with the virus, or were they taken previous treatments, or did they take the blood plasma of others who had previously recovered?</div> <div>2- Biochemical measurements, why weren't they addressed, and they are important, such as glucose, albumin, protein glycase, etc.</div>	
<b>Optional/General</b> comments	<div>1. Are the nutrition, fruit and vegetable histories of each patient confirmed</div>	

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
