Title of the Manuscript:	Microencapsulated Lactobacillus acidophilus FNCC 0051 Dan Streptococcus thermophilus FNCC 0040 Technique Emulsion Using Gelatin and Na Alginate
Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalafsj.com/index.php/AFSJ/editorial-policy>)

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>The study is well planned and scientifically correct. Discussion is very well written, however there are some serious concerns mentioned below:</p> <ul style="list-style-type: none"><li>• The manuscript requires rigorous grammatical corrections and English editing.</li><li>• Improvement in sentence framing is required throughout the manuscript.</li><li>• The full form of ANOVA is incorrect in the text.</li><li>• Concentration of microbial strains taken has not been specified clearly.</li><li>• The treatments given are referred as T1, T2 etc at some places whereas at some places P1, P2 has been written. Please maintain uniformity in coding of treatments throughout the manuscript.</li><li>• Same error is also seen in figures. Correct accordingly.</li><li>• Please check the manuscript for plagiarism.</li></ul>	
<b>Minor</b> REVISION comments	Minor revisions have been marked in the manuscript itself.	
<u>Optional/General</u> comments	--	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
