PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	There is some precious information that is of relevance to livelihoods that is lost due to not correlating yields and monetary returns to the state of the soil. This can be revealed by having a discussion section that will allow the authors to briefly assess each of the results rather than having to conclude immediately after the results are presented.	
Minor REVISION comments		
Optional/General comments	It is a very good study that was well thought out and done well and thus deserves a more finer ending the outcome of which can then be shared with the Char farmers (with recommendations in the conclusion).	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
