

Review Form 1.6

Journal Name:	Asian Journal of Advances in Agricultural Research
Manuscript Number:	Ms_AJAAR_84241
Title of the Manuscript:	Performance of Cucumber (Cucumis sativus L.) as Applied with Vermi Tea as Organic Fertilizer
Type of the Article	Short Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>1. There are typos and format errors (spacebar, reference list format,...) need to be checked.</p> <p>2. I think that the discussion needs more explanations of the result obtained.</p> <p>3. It would be better to cite more recent article in close fields.</p> <p>4. The writer needs to re-examine about the arrangement of sentences as follows This study aimed to determine the performance of Cucumber (<i>Cucumis sativus</i> L.) as applied with vermi tea as organic fertilizer. Specifically, it sought to answer the following questions.</p> <p>1. Is there a significant difference on the number of days to germinate of cucumber (<i>Cucumis sativus</i> L.) as applied with vermi tea as organic fertilizer?</p> <p>2. Is there a significant difference on the number of flowers per plant of a cucumber (<i>Cucumis sativus</i> L.) as applied with vermi tea as organic fertilizer?</p> <p>3. Is there a significant difference on the length of fruits of a cucumber (<i>Cucumis sativus</i> L.) as applied with vermi tea as organic fertilizer?</p> <p>4. Is there a significant difference on the diameter of fruits of cucumber (<i>Cucumis sativus</i> L.) as applied with vermi tea as organic fertilizer?</p> <p>5. Is there a significant difference on the number of fruits harvested of cucumber (<i>Cucumis sativus</i> L.) as applied with vermi tea as organic fertilizer?</p> <p>6. Is there a significant difference on the weight of fruit harvested of a cucumber (<i>Cucumis sativus</i> L.) as applied with vermi tea as organic fertilizer?</p> <p>Please delete the above in red and put the aim of the study at the end of the introduction</p>	
Optional/General comments
