Review Form 1.6

Journal Name:	**Asian Journal of Applied Chemistry Research**
Manuscript Number:	**Ms_AJACR_84364**
Title of the Manuscript:	**Physicochemical Evaluation of Sugarcane Molasses (black honey) during Storage in Various Packaging Materials**
Type of the Article	**Original Research Article**

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.
To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	The paper is well written, clear and the goals were reached. There are obscure points related to the chemical reactions envolved in this study during storage of the product. If color changed, acidity changed, and viscosity changed, which chemical reactions may be occurred? Oxidations? Nitrogenation? It is not clear in the text. Other point, it is not clear why it was choosen the temperature storage of 40 ºC. Statistic data is ok. Which software was used?	
Minor REVISION comments	I found in the text the idiom "packing", i'm not sure if is the correct form instead packaging, once packaging is related to the storage and packing make not sense.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Are there ethical issues in this manuscript?	*(If yes, Kindly please write down the ethical issues here in details)*
