PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments		
Minor REVISION comments	In Methodology, the author can add the methods he used for calculations, in order to obtain the results presented in Tables 2 and 3. Table 1 is split in two, which is very strange. Please correct this. Also, there are a lot of additional spaces, making it very large. After Table 3 there are 7 paragraphs starting like this: "Table 3… showed/also showed/revealed/also revealed". Replace with something else. "Per cent" or "%"? Decide and use only one of them. "m ha" and "mt" aren't explained – it's hard to understand they are "million ha" and "million tons".	
Optional/General comments
