

## Review Form 1.6

Journal Name:	<a href="#">Asian Journal of Agricultural Extension, Economics &amp; Sociology</a>
Manuscript Number:	Ms_AJAEES_86333
Title of the Manuscript:	Determine the effect of lime and boron interaction on nutrient availability and acidity parameters in soil.
Type of the Article	

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajaees.com/index.php/AJAEES/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	There is no statistical treatment of the data. I suggest performing a mean comparison test as there are 3 replicates/treatment. Additionally, check for any correlation between the data, in addition to providing a predictive analysis of the data.	
<b>Minor</b> REVISION comments	There is no description for seed analysis  I suggest presenting the results in graphs or tables. Too much text in the presentation of the results.	
<b>Optional/General</b> comments	I suggest a review of the English language.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
