### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ol style="list-style-type: none"><li>1. The review of literature section is missing. The author must define what has been done in the past studies. The research gap needs to be identified and mentioned in the paper.</li><li>2. How the author has arrived at 225 respondents? Why not more or less than 225? Please justify the adequacy of sample size.</li><li>3. The author has mentioned "<i>stratified random sampling</i>" was used. Actually, this sampling method is a type of probability sampling and the author has followed non-probability sampling. So please rectify the method of sampling.</li><li>4. Why the arithmetic mean is calculated? Please provide the results in the paper.</li></ol>	
<b>Minor</b> REVISION comments	<ol style="list-style-type: none"><li>5. The whole paper should be proofread to get rid of grammar /typo issues.</li><li>6. What are the unanswered questions the author(s) has addressed in this research?</li><li>7. Tables for figure 1 and 2 need to be given.</li><li>8. To whom and how this research is useful?</li><li>9. Please write the limitations and scope for future research.</li><li>10. What is the contribution of this research to the existing literature?</li><li>11. The Introduction section needs to be written properly.</li><li>12. The source for figures and tables should be to written.</li></ol>	
<b>Optional/General</b> comments		

### PART 2:
