Minor REVISION comments	<p>It's a search whose results draw the public's attention to the production of mushrooms as a nutritious source of food and a good source of income for producers in the region. It also shows the lack of support and encouragement from the public authorities to mushroom producers in terms of loan and subsidy for the cultivation of this vegetable of great nutritional importance for the population.</p> <p>I suggest that an English review of the text in general and standardization of bibliographic references be carried out.</p> <p>See suggestion in article text</p>
