

**Review Form 1.6**

Journal Name:	<a href="#">Asian Journal of Agricultural and Horticultural Research</a>
Manuscript Number:	Ms_AJAHR_88283
Title of the Manuscript:	Bioactivity of Leaf Extract of Phyllanthus amarus Against Fungal Pathogens Associated with Rot of Sweet Orange.
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajahr.com/index.php/AJAHR/editorial-policy> )

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	The methodology adopted is appropriate. The pathogenicity of <i>Aspergillus niger</i> , <i>Aspergillus flavus</i> , <i>Penicillium expansum</i> and <i>Rhizopus stolonifera</i> on sweet orange is well proven fact. However, the study is appropriate at regional scale to create awareness of these post harvest diseases on local markets. Hence I recommend to publish this paper in the forth coming issues. The authors need to carryout the corrections and comment indicated in the manuscript before publication.	
<b><u>Minor</u></b> REVISION comments		
<b><u>Optional/General</u></b> comments		

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
