PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	<p>The revised manuscript brings up lost opportunities of HIV testing, especially among high-education level students, during actual pandemic time. Although the biggest limitation of the study is the bias in selecting, the strength of the study comes from the cohort itself.</p> <p>I recommend adding a few minor revisions to the manuscript:</p> <ul style="list-style-type: none">- The study population consisted of 119 students, but what was the target population? How many students?- I suggest include an OR graph to add a better explanation of the data. Visual concepts enhance the quality of the manuscript and support conclusions. <p>Overall, the manuscript is clearly written, the data are well presented, the conclusion and discussion consistent with the findings</p>	
<u>Optional/General</u> comments		

Review Form 1.6

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
