### **PART 1:** Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	<b>The author has to go through the manuscript and observe the minor corrections I made inside the text and effect it accordingly.</b>	
<b><u>Minor</u></b> REVISION comments	Though, the subject area already had a lot of work suggesting how important the area is to human health, the paper contributes to the existing information and knowledge. It is well-written and concise. However, the author(s) failed to give a clear critique of the health implications of the observed concentrations of the heavy metals being significantly higher than the control groups in his discussion.  Also, there is no consistency in referencing in the reference page. The author should check and write according to the referencing style and format as required by the journal	
<b><u>Optional/General</u></b> comments		

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
