

Review Form 1.6

Journal Name:	Asian Journal of Biotechnology and Genetic Engineering
Manuscript Number:	Ms_AJBGE_81144
Title of the Manuscript:	Bioaccumulation of heavy metals in various tissues of fish and their Human health risk assessment
Type of the Article	Review Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajbge.com/index.php/AJBGE/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The topic selected is relevant to the present ecosystem scenario. It has been well thought about the impact of the accumulation of metals in aquatic species particularly in the current scenario when the consumers are in the serious mood for better health and nutrition.	
Minor REVISION comments	The paper could have the following points included: 1. How to assess the concentration of accumulated heavy metals in the consumers 2. What are the health effects of the accumulated metals on the consumers ,given the fact that today's consumer is a health and nutrition freak and therefore msut also be aware of the consequences of consumption of these foods.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
