<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	My concerns are as follows. (1) I suggest to change the title to "Regulatory role of D-bodies in miRNA processing at early developmental stages in plants". (2) Since there are not other numbering, it is no need to number the "Introduction" section as "1". Just leave "Introduction" there. (3) The caption "Observation" is not suitable. The authors need to change it to another one. (4) A discussion part to summarize the major conclusion of this review, and suggest further direction is needed. (5) The figure needs brief legends.	
<u>Optional/General</u> comments
