PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1) I don't see the point of presenting it as a Case report (the message to deliver). It is well prescribed disease. 2) The presented case coincides with the natural history of the disease described in literature. So I saw nothing new is being reported in that particular case. 3) Its incidence is 1.5 to 2 persons/10,000. It is not a very rare disease. (Westermann CJ, Rosina AF, De Vries V, de Coteau PA. The prevalence and manifestations of hereditary hemorrhagic telangiectasia in the Afro-Caribbean population of the Netherlands Antilles: a family screening. Am J Med Genet A. 2003 Feb 01;116A(4):324-8.)	
Minor REVISION comments	1) The history needs to be more comprehensive i.e., Condition started ...	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
