PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>Please rewrite</p> <p>In Before surgery Atrial septostomy: This procedure is usually performed by cardiac catheterization rather than surgery, which improves the natural connection between the upper chambers of the heart.</p> <p>In After Surgery After corrective surgery, the baby will need lifelong follow-up care from a cardiologist who specializes in congenital heart disease to monitor their heart health. Cardiologists may recommend that the child avoid certain activities, such as weightlifting or competitive sports, as these can raise blood pressure and put pressure on the heart.</p>	
<u>Minor</u> REVISION comments	Please correct the coronary artery abnormalities percentages in Abstract	
<u>Optional/General</u> comments	Please add some more references	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
