PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	**The manuscript brings an important and current theme for ecology field. However, all English needs to be revised by a native speaker, the text is confusing in some points and there are several problems with citing references (non-standard references, authors cited in the list of references and not cited in the text - and vice versa, references without the year, names of authors with lowercase letters, among others. In other words, the authors of the manuscript clearly did not minimally review what was written before submitting the paper to the journal). Therefore, I strongly recommend a major proofreading of the entire manuscript before the acceptance.**	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Are there ethical issues in this manuscript?	*(If yes, Kindly please write down the ethical issues here in details)*
