<b>Compulsory</b> REVISION comments  This paper is sound in terms of organisation, contents and analysis. It is publishable. However, these one point may be included to enhance its quality. 1. <b>The title should be 'Trend Analysis of Vehicular Traffic Contributions to Air Pollution in Urban Cities: A Case Study of Port Harcourt Nigeria'</b>	<b>The inclusion of the Case Study in the title will give the work a focus and direction. My reading of the work revealed that the case study is Port Harcourt city in Nigeria but it was not properly conveyed in the title.</b>	
<b>Minor</b> REVISION comments 1. <b>Typographical Errors</b> 2. A little description of the study area ( case study area ) should be made under Materials and Methods	Very scanty typographical errors were noticed which can be ignored.  A brief description of the Study Area under Materials and Methods may be very useful	
<b>Optional/General</b> comments Robust Literature Review	The literature review was adequate and was able to address the key words in the title of the work.
