PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none">- The topic has been slightly changed to read “School Health Services and Pupils' Academic Performance in Geita Town Council” and this is because the research technique and method employed are not experiential in nature as to warrant “Influence”! Besides, the analysis dealt with only frequency and percentages of Agree and Disagree and this could not give you any basis to determine influence of a variable upon another/others.- Some of the cited works in the References section were not in line to the recent APA Referencing Guidelines and as such should be corrections and observations made should be adhered to.- Item 2 in the questionnaire need to be carefully worded because it is not so meaningful as it is.	
Minor REVISION comments	<ul style="list-style-type: none">- Grammatical and syntactical errors and mistakes pointed out should be taken care of.	
Optional/General comments	The paper is really very topical and also it gave an insight into a very interesting factor in teaching and learning.
