PART 1: Review Comments

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	- Manuscript needs extensive revision and review on the use of the English language. - Results are not properly presented - Almost there is no discussion which supports the result - Tables are not properly presented - Even though the manuscript was finished research, the way it was presented was like a research proposal (with present and future tense). - There is no coherence between the tables and the results - The manuscript hasn't followed any journals format - Separate results and discussion - Misplaced sections - English language has to be checked by a native speaker	
Minor REVISION comments	The abstract is not informative	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Are there ethical issues in this manuscript?	*(If yes, Kindly please write down the ethical issues here in details)*
