Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	**Reviewer's comments** **1. The abstract needs to be improved. The aim of the study as well the results obtained should be clearly mentioned.** **2. There are so many spelling errors in the abstract e.g diference, paterrn, ideigenes, rigde. Correct them carefully. Write Fingerprint instead of Finger print.** **3. Introduction has to be modified with latest studies reported in the literature with respect to your study.** **4. What do you mean by "descriptive cross-sectional study"? Be more specific.** **5. Population study should include the ratio of male, female, young, old and children in the selected region. The author should provide all these details.** **6. The image in the population study section needs to be corrected.** **7. What do you mean by "simple random sampling technique" and "study involved primary data"? Explain briefly.** **8. Please provide the ethical approval number.** **9. Results and discussion needs to be detailed. The author has to provide the outcomes of the study. Do not only direct to tables for results.** **10. Conclusion needs to be improved with more precise summary of the study.** **11. Overall English of the manuscript needs to be improved.** **12. Grammatical, typographical errors and formatting of the manuscript needs to thoroughly checked and corrected**	
Minor REVISION comments		
Optional/General comments
