PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	To include more literature review on the effect/association/relation of anthropometry and the use of contraceptives in the introduction. The introduction was too focused on elaboration on the contraceptives which does not explain the need for the study.	
Minor REVISION comments	Good methodology. The author can include the information on how many persons were involved in taking/rating the anthropometry measurement and the method to minimise the inter-rater variability.	
Optional/General comments	Good study	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
