Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	**The manuscript is well-written, the methodology is clear and results are well presented. I would recommend publication of this manuscript after considering the below minor revisions.**	
Minor REVISION comments	In the abstract: - please remove the words "the percentage" from "In contrast, only 13.9% the percentage of participants utilized inpatient services…". In keywords: - I recommend adding the keyword "disadvantaged population". In introduction: - Please change "Ministry Of Health Malaysia" to "Ministry of Health Malaysia". - Please state what "MYR" stands for as a currency abbreviation? - Please pay attention for some verbs tense. In methodology: - How long did the data collection take for this cross-sectional study? - Some verbs tenses are in future but it should be in the past tense. In results: - In the first paragraph, please change "56.2% of participants were employed with 25.5% being…" to "56.2% of participants were employed while 25.5% being…" - It would be better if authors explain the difference among B1, B2, B3 and B4 subgroups in paragraph one. - Please change "Table 4 are showing the utilization of outpatient and inpatient healthcare" to "Table 4 is showing the utilization of outpatient and inpatient healthcare". - Please change "while 58(29.9%) seeked services from a private healthcare sector" to "while 58(29.9%) sought services from a private healthcare sector". - I think there is no Table 7 in results, it should be table 4. Discussion: - please give citation to this study "A similar study done among B-40 income groups in Klang Valley, Malaysia…". - Please change "sanitisers" to "sanitizers".	
Optional/General comments
