Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>I have carefully read this case report. The work could be published after some revisions.</p> <ul style="list-style-type: none">• The bibliography in the text should be completely re-ordinated. The first citation is (2), then (4), (6), (1) and so on.• The authors should explicitly state what is the selected reference diagnostic system (such as DSM-5)• Both OCD and SCZ should have at least one line of explanation (OCD is...)• Despite this work is about comorbidities in OCD, the authors do not report comorbidities for OCD in their background. At least the comorbidity with<ul style="list-style-type: none">◦ bipolar disorder (I may suggest citing: Braverman L, Fuchs C, Weizman A, Poyurovsky M. Rate of OCD and sub-threshold OCD in bipolar disorder patients with first depressive episode. Psychiatry Res. 2021 Aug;302:114010. doi: 10.1016/j.psychres.2021.114010. Epub 2021 May 15. PMID: 34091393.),◦ personality disorders (I may suggest: Mroczkowski MM, Goes FS, Riddle MA, Grados MA, Bienvenu OJ, Greenberg BD, Fyer AJ, McCracken JT, Rauch SL, Murphy DL, Knowles JA, Piacentini J, Cullen B, Rasmussen SA, Pauls DL, Nestadt G, Samuels J. Dependent personality, separation anxiety disorder and other anxiety disorders in OCD. Personal Ment Health. 2016 Feb;10(1):22-8. doi: 10.1002/pmh.1321. Epub 2015 Nov 5. PMID: 26542617)◦ and Anorexia Nervosa (I may suggest: Pruccoli J, Rosa S, Cesaroni CA, Malaspina E, Parmeggiani A. Association among Autistic Traits, Treatment Intensity and Outcomes in Adolescents with Anorexia Nervosa: Preliminary Results. J Clin Med. 2021 Aug 16;10(16):3605. doi: 10.3390/jcm10163605. PMID: 34441899; PMCID: PMC8397224).• Informed consent should be disclosed	
Minor REVISION comments	<ul style="list-style-type: none">• The discussion should discuss the results citing the previous literature.• "The first contact with the psychiatrist took place in 2017..." after this, 5-6 lines look like a copy-and-past of the previous page.• Abbreviations should be spelled before their first use both in the abstract (e.g., OCD) and in the text• The English should be revised across the whole manuscript	
Optional/General comments
