### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The topic is interesting. However, there are major objections: 1. There are grammatical errors that need to be corrected 2. The results should provide tables including patients' characteristics 3. The final outcome should be determined and shown in either charts or tables in both groups. 4. The discussion part is not completely written and is mostly devoted to the results of the present study. Insufficient comparative data are present.	
<b>Minor</b> REVISION comments	None	
<b>Optional/General</b> comments	It is recommended to rewrite the paper to be more attractive, particularly in the results by tables and charts	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
