Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Introduction: Few lines and references on causes of CVST would enable the reader to better understand</p> <p>Discussion part : CVST after vaccination needs to be discussed as many papers have already been published in this area .</p> <p>In patient 4 and 5, this seems to be side effects of covid 19 vaccine, in which authors must differentiate between normal CVST and also the immune thrombotic CVST.</p> <p>Case 3: Was there any previous medical records on the proven psychotic symptoms and taking the Levatiracetam</p>	
Minor REVISION comments	<p>Introduction: Please differentiate between reference number one and ref number two, the statement says as affecting in ref number one and incidence in reference number two. These may be clubbed or be made clear.</p> <p>dexamethasone 4mg tid : tid is Not uniform in all places</p> <p>anisocoria- this is corrected , check the spelling in MS</p> <p>mannitol 200mls od, - Sometimes caps and sometimes small , make it uniform</p> <p>Pueperium--- check the spelling in MS</p> <p>Discussion: check the spelling of constitutes (this is corrected)</p> <p>According to the International Study on Cerebral vein and Dural Sinus Thrombosis, the most commonly affected sites are the transverse sinus followed by the superior sagittal sinus.- give reference for this statement</p> <p>Anticoagulated—check the spelling</p> <p>Steroids are not recommended are are linked to a poorer prognosis in CVST even in the presence of underlying parenchymal lesions, unless indicated by underlying conditions such as meningitis or malignancy---Check the sentence and correct the spelling</p> <p>Antiepileptic drugs must not be given routinely as prophylaxis but should be administered —check the spelling</p> <p>Figure 1 and 2: Please highlight by arrows where the notable changes present</p> <p>Figure 3: Please highlight by arrows where the notable changes present put a, b, c for each figure and make the legends clear for each figure.</p> <p>Figure 4: Please highlight by arrows where the notable changes present,</p>	

Review Form 1.6

	<p>,please put a, b, c for each figure and make the legends clear for each figure.</p> <p>Figure 5: Please highlight by arrows where the notable changes present</p> <p>, please put a, b, c for each figure and make the legends clear for each figure.</p> <p>Table 1: Case 3 only died as per the MS, but in table it is wrongly mentioned as Case 2, died.. check once more and verify</p>	
Optional/General comments	<p>This is good work, the data is important in the current context of public health challenges.</p> <p>Overall the manuscript needs minor revision, the spelling need to be checked twice.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
