PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The article proposes a case report of infrequent disease. It brings considerations about the diagnostic difficulty and alerts about the need to think about this disease still prevalent in part of the world.	
Minor REVISION comments	The keywords are not equivalent to health or Mesh terms descriptors. The exams are presented by acronyms (NCCT, CBNATT), assess the convenience of describing the non-abbreviated examination.	
Optional/General comments	no comments	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
