Compulsory REVISION comments	We appreciate the interest in knowing the students' perception of the teaching practices of physics teachers. A more robust foundation of the concept of Classroom Practices would be needed. For the efficiency of the research, it would have been useful to operationalize the concept of Classroom Practices in order to be in agreement with the items of the questionnaire. It would be useful to enrich the bibliography with newer titles, published on the same topic or on similar topics after 2018.
