General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajravs.com/index.php/AJRAVS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none">1. Not mentioned anything about ethical approval(IAEC No needed)2. Material & Methods- timing of sunlight exposure not mentioned.3. Results- The article mentioned that sunlight exposure increased the vit D value in both exposed groups. But in group C the value was lower than control group. Here the result was not clearly interpreted4. The manuscript will be more valued if the author measured the food and water intake of animals. Because if the animals is exposed to sunlight definitely it will affect food and water intake.5. Discussion section need little more references	
Minor REVISION comments		
Optional/General comments	spelling mistakes has to be corrected	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
