

## Review Form 1.6

Journal Name:	<a href="#">Asian Journal of Research in Botany</a>
Manuscript Number:	Ms_AJRIB_88063
Title of the Manuscript:	The Phytochemical Constituents and Anti-Salmonella Activity of the Combined Leaves Extracts of Selected Medicinal Plants
Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://journalajrib.com/index.php/AJRIB/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The subject of manuscript is interesting, but the only thing they report on the antibacterial activity are the inhibition halos. It is recommended that the MIC and MBC be determined, the authors can apply the dilution micro-technique and use TTC as an indicator of cell viability. It is also recommended to determine if the extract has a bacteriostatic or bactericidal activity. The time kill curve of bacteria is carried out to observe the bactericidal or bacteriostatic action Further observations are included in the manuscript.	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
