

SDI Review Form 1.6

Journal Name:	Asian Journal of Research in Infectious Diseases
Manuscript Number:	Ms_AJRID_60433
Title of the Manuscript:	A Time Series Model on the Occurrence of COVID-19 Pandemic in Nigeria
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	The manuscript gives a comparison between different statistical models to evaluate the evolution of COVID-19. Authors give a good comparison between the models. However, according to the results we can see that the Error of the best model still high (~17%). In my opinion, it will be perfect if author give an explanation about this error and make some suggestion to reduce this error (not recommended but if he can). For the conclusion, it is better to split the first paragraph into two or three to be easier to read.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
