General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajrid.com/index.php/AJRID/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The manuscript is very good but must be reviewed by the authors in a better way, with the corrections they elaborate it has a high probability of being published. First it should be noted that international research protocol is respected I recommend reviewing https://www.equator-network.org include a flowchart that allows you to be clear about the protocol that is respected . It is necessary to summarize the article a lot we reach 5600 words I recommend synthesizing some parts of the article that gives more interest to the author.	
Minor REVISION comments	Make the recommended corrections, the paper has the possibility of publication	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
